**sids and kids**  
Saving Babies Lives

Medico Wipes are a Hospital grade disinfectant wipe for hard surfaces.

The active ingredient, ISOPROPYL ALCOHOL, is ideal when taking action against bacteria.

Medico Wipes sanitise and disinfect pre-cleaned hard surfaces which can help to reduce the spread of germs and viruses† in children's facilities.

To sanitise and lower the spread of germs in your childcare centre, simply wipe over pre-cleaned key touch points at the end of each day and dispose of wipes in the rubbish. Alcohol evaporates quickly ensuring no residue left on surfaces.

Medico Wipes are available in a convenient self-dispensing canister with an easy to use dispenser and airtight closure to keep wipes moist until you are ready to use. Each pack contains 75 large disposable sheets.

To achieve disinfecting results surfaces must be pre-cleaned with a detergent prior to using the wipe.

Medico Wipes contain 70% alcohol which is the Gold Standard accepted by the World Health Organisation (WHO) as the benchmark for bacteria prevention.
